

HECAT® MARK II PULSATOR®

The Original “Pulsating” Oil Cooler Flusher Trans, Engine, P/S, & Many Other Oil Coolers

ECONOMICAL, DURABLE, AND PORTABLE MODEL

The proven technology, powerful kinetic energy, and high flow rate of the **PULSATOR®** process (US Pat. #9233404); will remove the oils and debris from the parallel paths of even the most complex components. Something the spray can, little 1qt flush gun, and the laminar flow of simple circulating systems; just cannot.

Lifetime Warranty
with exclusive use of
SAFE-FLUSH® Trans.

The **MARK II** Includes:
Trans Cooler & Line
Adapter Kit & 2 Gal. of
SAFE-FLUSH® Trans.
