

HECAT® MARK IV PULSATOR®

Solvent Recycling Oil Cooler Flusher for Trans, HD, Engine, P/S, & Other Oil Coolers

Operator and Environmentally friendly features provide for a rapid Return on Investment (ROI). The high flow rate combined with the powerful kinetic energy of the (US Pat. #9233404) **PULSATOR®** process; will remove the oils and debris from the most complex components. Something the spray can, 1qt flush gun, and the laminar flow of simple circulating, and hot oil systems; just cannot.

Lifetime Warranty
with exclusive use of
SAFE-FLUSH® Trans.

The MARK IV Includes:
The Trans Cooler & Line
Adapter Kit & 2 gal. of
