

The Pulsator® Flush Gun

HVAC, INDUSTRIAL, AUTOMOTIVE, FLEET, AVAITION, HEAVY DUTY, MARINE & MORE

For Solvent Cleaning of Condensers, Evaporators, Oil Coolers...

Multi-Purpose Internal Blasting Heat Exchanger Flusher

Patented Pulsating Solvent Scrubbing Action - US Pat. 9233404

A Quick Effective Flushing Tool for Many Applications!

THE PROBLEM:

Common Flush Guns & Aerosols for HVAC or Automotive Flushing are Weak & Ineffective.

- SMALL & Restrictive Blow Gun orifice & line sets.
- NOT enough solvent (1 qt. or less) to flush or clean.
- NO energy or action to work, loosen, scrub, or clean.
- NO flow or volume to rinse, flood, wash, or clean.
- NO velocity to move & carry out any pieces of debris.
- NOT really flushing; more like just a solvent "POOF".

THE SOLUTION:

The Pulsator® Flush Gun

- High Flow Blasting Pulsating Action.
- Variable High Flow Gun with Lock.
- 2 Rubber Tips for Lines up to 1 inch.
- Large 1 Gallon Solvent Capacity.
- Carries & Stores in Capture Bucket.
- Dim & Weight: 12x12x15H, 20 lbs.
- 30 to 90 PSI Safe Operating Range.

Includes:

- Closed Capture-Bucket & Return-Line.
- Step-Sized Push-On Return-Adapter.
- Easy-Adjustable Pressure-Regulator.
- Pressure-Relief Safety-Valve (100 PSI).
