

HECAT® SAFE-FLUSH® A/C

Premium Air Conditioning Flushing Solvent

Compressor manufacturers require flushing or their warranty is void. HECAT® developed this synthetic hydrocarbon blend to be effective on all petroleum and synthetic derived refrigeration oils. Best results can be found when used with HECAT® PULSATOR® Flushing Equipment, which can safely and effectively remove the oil sludge and particulates from the A/C component being cleaned.

- **PART #200010A Sold by the case (4-1 Gal with 2 Filters).**
- **Filters are used with the FAC-400 flusher.**
